

CraftCan Series

Every CraftCan Canning System is designed and assembled in Lincoln, Nebraska. The CraftCan fills, lids and seams up to 15 or 35 cans per minute in a wide variety of aluminum cans to provide diversity for your brands. The CraftCan15 is easily upgradeable to the CraftCan35 to increase throughput as your business grows.

The CraftCan is engineered with our patented Servo Seamer and real-time seam analysis to ensure precise and in-spec cans time-after-time. In addition, our filling and purging technology ensures low dissolved oxygen levels for a quality packaged product and improved shelf-life. It is innovative, versatile, and affordable; built to generate the profits your craft beverage business deserves.

Precision Filling

- Exclusive one-piece fill head design for enhanced sanitary environment and increased fill level accuracy
- Proprietary CO₂ micro-burst action to better manage foam
- Purge Cycle - precision purge control means reduced dissolved oxygen pickup resulting in reliable oxygen evacuation
- Average DO pickup 15-25 PPB
- Nitrogen compatible

Quick-Change Lid Magazine

- Increase your efficiency

Servo Seamer Technology

- Patented Torque Monitor instantly inspects and assesses seam accuracy on every can
- System diagnostics available for remote troubleshooting

Small Footprint

- 8' length x 2' width fits in tight spaces
- Optional casters

Post Rinse & Dryer Included

- Ensures cans are clean & dry for packaging or labeling

Fills up to 35 Cans Per Minute
