LabelMax90

The LabelMax90 Labeling System is a compact and economically-priced in-line label applicator that is ideal for production rates of up to 90 containers per minute. Featuring a programmable microprocessor that manages specific functions of the operation. Computerized controls are simple and dependable and allow the operator to match speeds of the labeler to the pre-set conveyor speed.

Optical sensors ensure a smooth and trouble-free operation. The front panel display provides real-time information on the labeling process. The unit's simplicity makes it ideal for packaging lines requiring frequent changeovers on a wide variety of products. An optional clear label sensor is available for applying clear labels.
Quickly Label a Variety of Containers

- Operation speed is adjustable to a wide range of round container sizes

Premium Features

- Advanced Stepper Motor and quality Optical Sensor make operations quick, precise, and reliable
- Complete with automatic warning-feature for label breaks, empty spool, and low label volume

Built to Last

- Conveyor-mounted assembly
- Lightweight, rigid construction for long-lasting operation

LabelMax90
