

The LabelMax35 tabletop labeler is a compact and economically-priced label applicator that is ideal for production rates of up to 35 containers per minute. The LabelMax35 features a Programmable Logic Controller (PLC) that manages specific functions of the operation. The computerized controls are simple and dependable, and allow the operator to match speeds of the labeler to the pre-set conveyor speed. Optical sensors ensure smooth and trouble-free operation. The touchscreen Front Panel Display provides real-time information on the labeling process. The unit's simplicity makes it ideal for packaging lines requiring frequent changeovers on a wide variety of products.

Premium Features

- Touch screen panel for ease of operation and continual visual monitoring
- Designed to print date/batch code directly onto label prior to application
- Built-in photo sensor and AUX port for optional external photo sensor
- Optional date coder

Fast, Accurate Labeling

- Servo motor for precise positioning
- Auto-wrap speed syncs to label speed; no manual adjustment needed
- Spacer wheel included for optimal package spacing

Table and Casters Optional
