

# Triumph Classic Bottle Filler

The multi-functional Triumph Classic medium speed mono-block rotary filling system is proven to be a reliable and effective filler for the bottled water and beverage industries. Speeds up to 33 bottles per minute can be achieved on this durable and dependable system, including eight rinse valves, eight fill heads, and four cap head assemblies. The rotary filling line's continual motion is what sets it apart from inline systems and other lower speed alternatives. Ask about producing carbonated beverages and ROPP cap options.

## Internal Bottle Rinsing

- 8 rinse valves
- Clean Air Conveyor before rinse station
- Bottles are inverted, rinsed, and drained

## Automatic Capping
